

STANDARD 1

Light output: up to 1912lm **Standard finishing:** ● ○

Features

Presenting our STANDARD 1, featuring a lumen output of 1581lm to 1912lm. Available in standard color temperatures of 2700K, 3000K, and 4000K, with additional options on request. This versatile product offers various beam angles ranging from 15° to 50°, making it ideal for retails and commercial spaces. With an IP20 rating, it provides suitable protection for indoor environments. Additionally, we provide customized finishing options to meet the project specific requirements.

Dimming options

For dimmable version add the following suffix to the Part number → -DA: DALI.

Applications

STANDARD led track light projectors are among the most affordable and versatile solutions in the LED lighting industry. Designed for a wide range of applications, they are ideal for exhibitions, retail shops, and hospitality environments where focused and efficient illumination are essential. These projectors enhance product displays and architectural features while creating inviting atmospheres. Combining high performance with cost-effectiveness, they offer flexible lighting options suitable for both accent and general lighting needs across various commercial and public spaces.
